

TERMS AND ABBREVIATIONS

- o ADP -- Automated data processing.
- o ASCII -- American Standard Code for Information Interchange.
The standard code used for information interchange among data processing systems, data communications systems, and associated equipment in the United States. ASCII is commonly employed by a wide range of small and large computer companies.
(It is an coding technique to EBCDIC, defined below.)
- o BDM -- Navy Department Board of Decorations and Medals
- o CCF -- The Central Computing Facility of DONOACS
- o CNO -- Chief of Naval Operations
- o DBA -- Data Base Administrator -- Supervisory person who controls access to and maintains the data base
- o DBMS -- Data Base Management System
- o DEC -- Digital Equipment Corporation.
- o DoD -- Department of Defense.
- o DONOACS -- Department of the Navy Office Automation and Communications System, founded in 1982.
- o EBCDIC -- Extended Binary-Coded-Decimal Interchange Code, developed by IBM for use in the IBM System/360, and used on the IBM System/370. To be compatible with hardware, numerous other vendors also employ
Like ASCII, EBCDIC is a technique of storing in a computer.
- o FIPS -- Federal Information Processing Standard, a publication of the National Bureau of Standards. These are the official publications regarding disseminated according to the requirements of Law 89-306 (Brooks Bill) and according to Part 6 Title 15 of the Code of Federal Regulations.
- o FMS -- Forms Management System.
- o FORTRAN -- Formula Translation Language, a procedure-oriented language employed principally in scientific or uses. FORTRAN was the first language to a non-programmer to talk efficiently with a computer.
- o IMS -- Microcomputer Systems, Inc., the Systems and Technical Assistance (SETA) contractor some AIMS software and documentation, as in DONOACS Technical Task Order 87-0??08.

- o I/O -- Input/output.
- o MAF - Master Awards File
- o MSSA -- Monthly Statistical Summary of Awards
- o NBDM -- Navy Department Board of Decorations and Medals
- o NARDAC -- Navy Regional Data Automation Command.
- o NHIC -- Navy Headquarters Information Center
- o NMPC -- Naval Military Personnel Command
- o OIS -- Office Information System
- o PCMDS -- Participating Commands
- o SECNAV -- Secretary of the Navy
- o Selection Set -- After a FIND command, AIMS will search data base according to the criteria the user specified and will find a group of records that match the criteria. This group of records is called the "selection set."
- o SHIPS -- Secretariat and Headquarters Information Process System.
- o SSN -- Social Security Number
- o S1032 -- the System 1032 data base management system operating on VAX hardware, also referred to as 1032
- o VAX -- Virtual Address Extension, the name of a family of Digital Equipment Corporation micro-, mini-, and Virtual mainframe computers.
- o VDBMS -- Virtual Data Base Management System
- o VDT -- Video Display Terminal
- o VMS - Virtual Memory System, an operating system used on Digital Equipment Corporation's VAX family of computers. Indeed, VMS and the VAX family were developed to be integrated fully with one another. VMS offers a dependable, high-performance environment for simultaneously carrying out multi-user timesharing, batch, and realtime applications, using various hardware configurations.

Terms and Abbreviations

- * BDM - Navy Department Board of Decorations and Medals.
- * BPS - Bytes per inch.
- * CCF - The Central Computing Facility of DONOACS.
- * Certificate - An official document which identifies an award and the individual or unit which receives it.
- * CHC - Chaplain Corps.
- * Citation - A written account of heroic acts or a written enumeration of meritorious achievements or services.
- * CMC - Commandant of the Marine Corps.
- * CMC Case - An award case which is approved by the CMC; one which does not require the approval of the Secretary of the Navy.
- * CNO - Chief of Naval Operations.
- * DBA - Data Base Administrator - Supervisory person who controls access to and maintains the data base.
- * DBMS - Data Base Management System.
- * DEC - Digital Equipment Corporation.
- * DMS - Decorations and Medals Specialist.
- * DSM - Distinguished Service Medal.
- * DOD - Department of Defense.
- * DON - Department of the Navy.
- * DONOACS - Department of the Navy Office Automation and Communications System.
- * EM - Electronic Mail.
- * Form 1650 - Standard Form 1650; Personal Award Recommendation.
- * FMS - Forms Management System.
- * FD - Functional Description.
- * IMS - Integrated Microcomputer Systems, Inc. The Systems Engineering and Technical Assistance (SETA) contractor to DONOACS, tasked to develop the AIMS system software and documentation.
- * IPS - Inches per Second.
- * I/O - Input and Output.
- * MAF - Master Awards File.
- * MUC - Meritorious Unit Commendation.
- * MHM - Acronym used to denote the Marine Corps Military Awards Branch; actually stands for the Military Awards Branch, Human Resources Division, Manpower Department, Marine Corps Headquarters.
- * MIA - Missing in Action.
- * MOH - Medal of Honor.
- * MSSA - Monthly Statistical Summary of Awards.
- * NBDM - Navy Department Board of Decorations and Medals.
- * NHIC - Navy Headquarters Information Center.
- * NUC - Navy Unit Commendation.
- * NMPC - Naval Military Personnel Command.
- * OIS - Office Information System.
- * OPO9B33 - Chief of Naval Operations, Awards and Special Projects Branch.
- * PCMDS - Participating Commands.
- * PUC - Presidential Unit Citation.
- * RD - Record Descriptor.
- * SC - Supply Corps.

- * SECNAV - Secretary of the Navy.
- * SECNAVINST - SECNAV Instruction.
- * SETA - Systems Engineering and Technical Assistance Contractor.
- * SHIPS - Secretariat and Headquarters Information Processing System.
- * SSN - Social Security Number.
- * S1032 - The System 1032 data base management system operating on VAX hardware, also referred to as 1032.
- * UAR - User Action Routine.
- * VAX - Virtual Address Extension - The name of a family of Digital Equipment Corporation computers.
- * VDBMS - Virtual Data Base Management System.
- * VDT - Video Display Terminal
- * VMS - Virtual Memory System. An operating system used on Digital Equipment Corporation's VAX family of computers.
